WHODAS
Score
Amendment

In response to stakeholder feedback, a request to the Centers for Medicare and Medicaid Services (CMS) to lower the WHODAS needs-based eligibility score from 50 to 25 is in process.

The score remains 50 until you hear directly from us.

Stakeholder input is necessary to advance and improve the program.

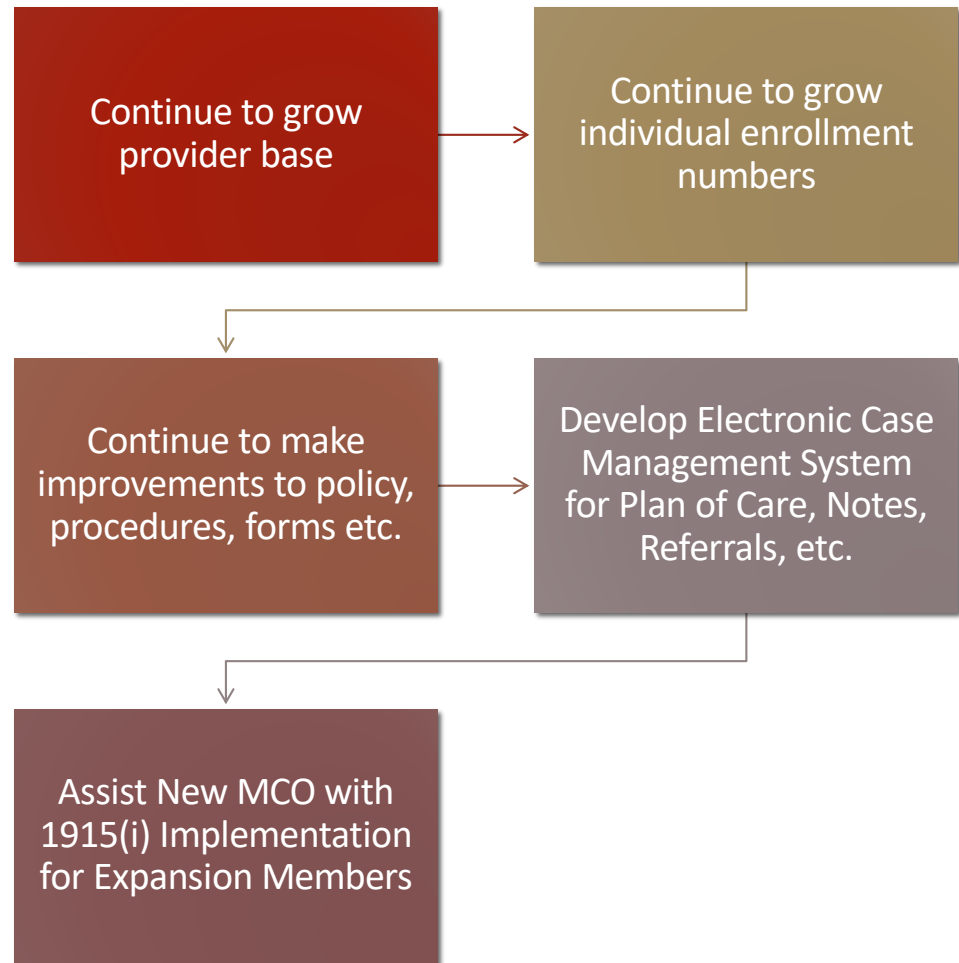

Input to date has brought about numerous changes to policy, procedures, forms, diagnosis list & practice.

The program has been undergoing change since the go-live date and will continue throughout the next year.

Input is always considered and leads to change whenever possible.
