Behavioral health

A state of mental/emotional being and/or choices and actions that affect **WELLNESS**.

Preventing and
treating
depression and
anxiety

Preventing and
treating
substance use
disorder or
other addictions

Supporting
recovery

Creating healthy
communities

Promoting
overall well-
being

BEHAVIORAL HEALTH IS HEALTH

An aerial photograph of a vast, rolling landscape. The terrain is covered in lush green vegetation, with numerous small, rounded hills and valleys. The sky above is filled with soft, white clouds, creating a bright and airy atmosphere. The overall scene conveys a sense of natural beauty and tranquility.

North Dakota Behavioral Health System Study

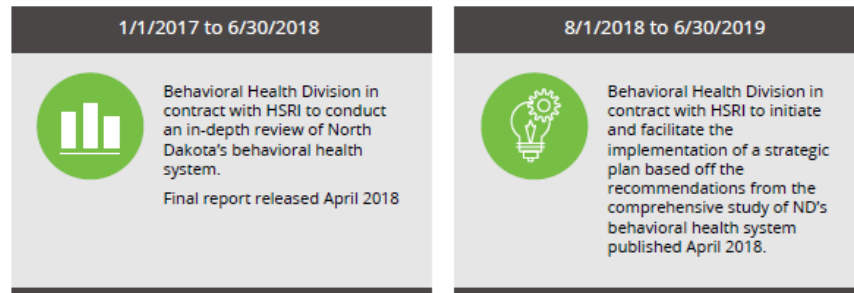

April 2018

“A well-functioning behavioral health system attends not only to the intensive needs of children, youth, and adults with serious mental health conditions and substance use disorders but also to the outpatient and community-based service and support needs of individuals, and, critically, to the social and emotional well-being of the majority of the population who have not been diagnosed with a behavioral health condition—especially children, youth, and young adults.”

North Dakota Behavioral Health System Study

BEHAVIORAL HEALTH SYSTEM STUDY TIMELINE

APRIL 2018 BEHAVIORAL HEALTH SYSTEM STUDY

Served as a component of interim legislative committee studies during the 65th Legislative Interim. This report presents the findings from the North Dakota Comprehensive Behavioral Health Systems Analysis, conducted by the Human Services Research Institute (HSRI) for the North Dakota Department of Human Services' Behavioral Health Division.

The 250-page report provides more than 65 recommendations in 13 categories. This set of recommendations is intentionally broad and far-reaching; it is not expected, nor suggested, that stakeholders in North Dakota endeavor to implement all these recommendations at once.

1. Develop a comprehensive implementation plan
2. Invest in prevention and early intervention
3. Ensure all North Dakotans have timely access to behavioral health services
4. Expand outpatient and community-based service array
5. Enhance and streamline system of care for children and youth
6. Continue to implement/refine criminal justice strategy
7. Engage in targeted efforts to recruit/retain competent behavioral health workforce
8. Expand the use of tele-behavioral health
9. Ensure the system reflects its values of person-centeredness, cultural competence, trauma-informed approaches
10. Encourage and support the efforts of communities to promote high-quality services
11. Partner with tribal nations to increase health equity
12. Diversify and enhance funding for behavioral health
13. Conduct ongoing, system-side data-driven monitoring of needs and access

North Dakota Behavioral Health System Study RECOMMENDATIONS

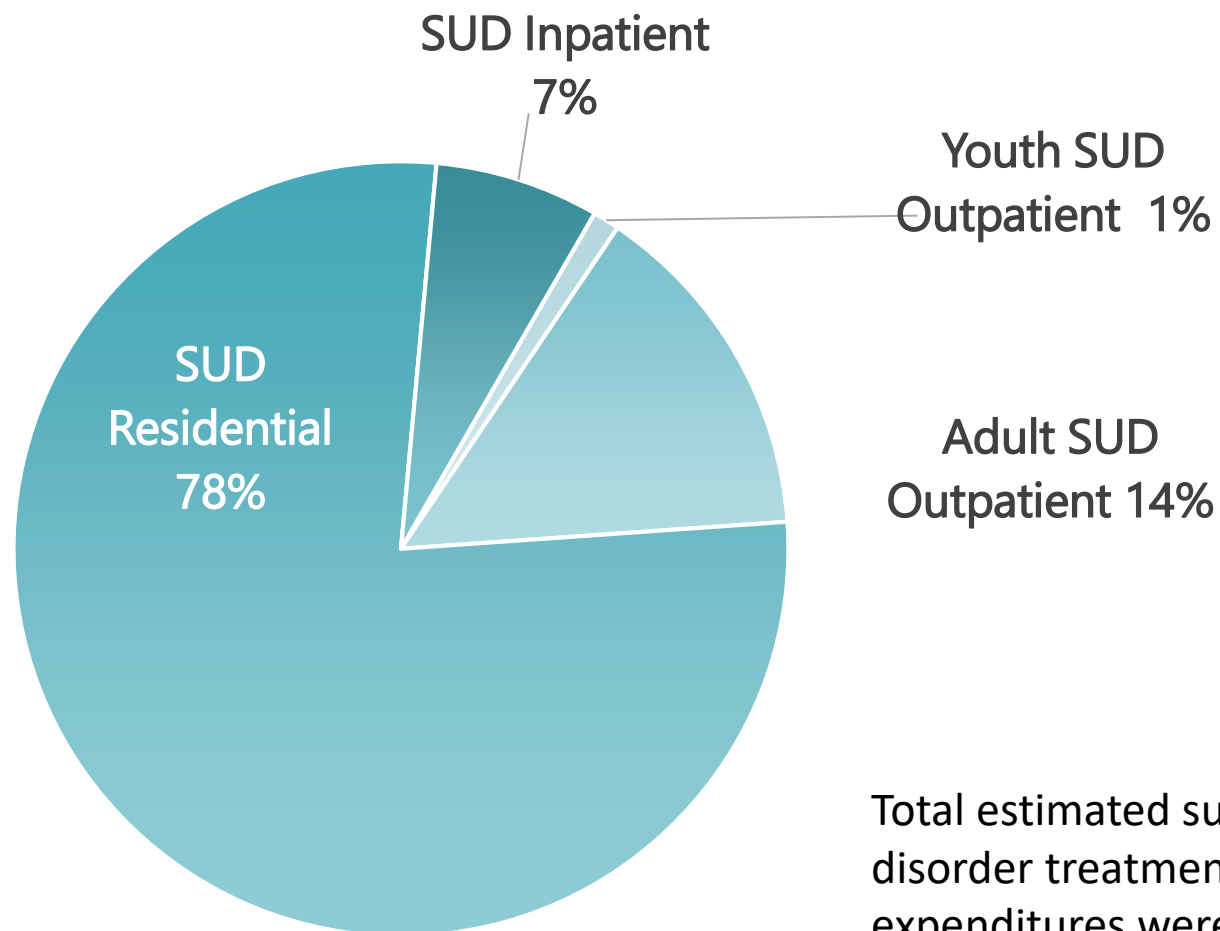

The 250-page report provides more than 65 recommendations in 13 categories.

1. Develop a comprehensive implementation plan
2. Invest in prevention and early intervention
3. Ensure all North Dakotans have timely access to behavioral health services
4. Expand outpatient and community-based service array
5. Enhance and streamline system of care for children and youth
6. Continue to implement/refine criminal justice strategy
7. Engage in targeted efforts to recruit/retain competent behavioral health workforce
8. Expand the use of tele-behavioral health
9. Ensure the system reflects its values of person-centeredness, cultural competence, trauma-informed approaches
10. Encourage and support the efforts of communities to promote high-quality services
11. Partner with tribal nations to increase health equity
12. Diversify and enhance funding for behavioral health
13. Conduct ongoing, system-side data-driven monitoring of needs and access

Residential and inpatient expenditures accounted for about 85% of substance use disorder treatment services in FY2017.

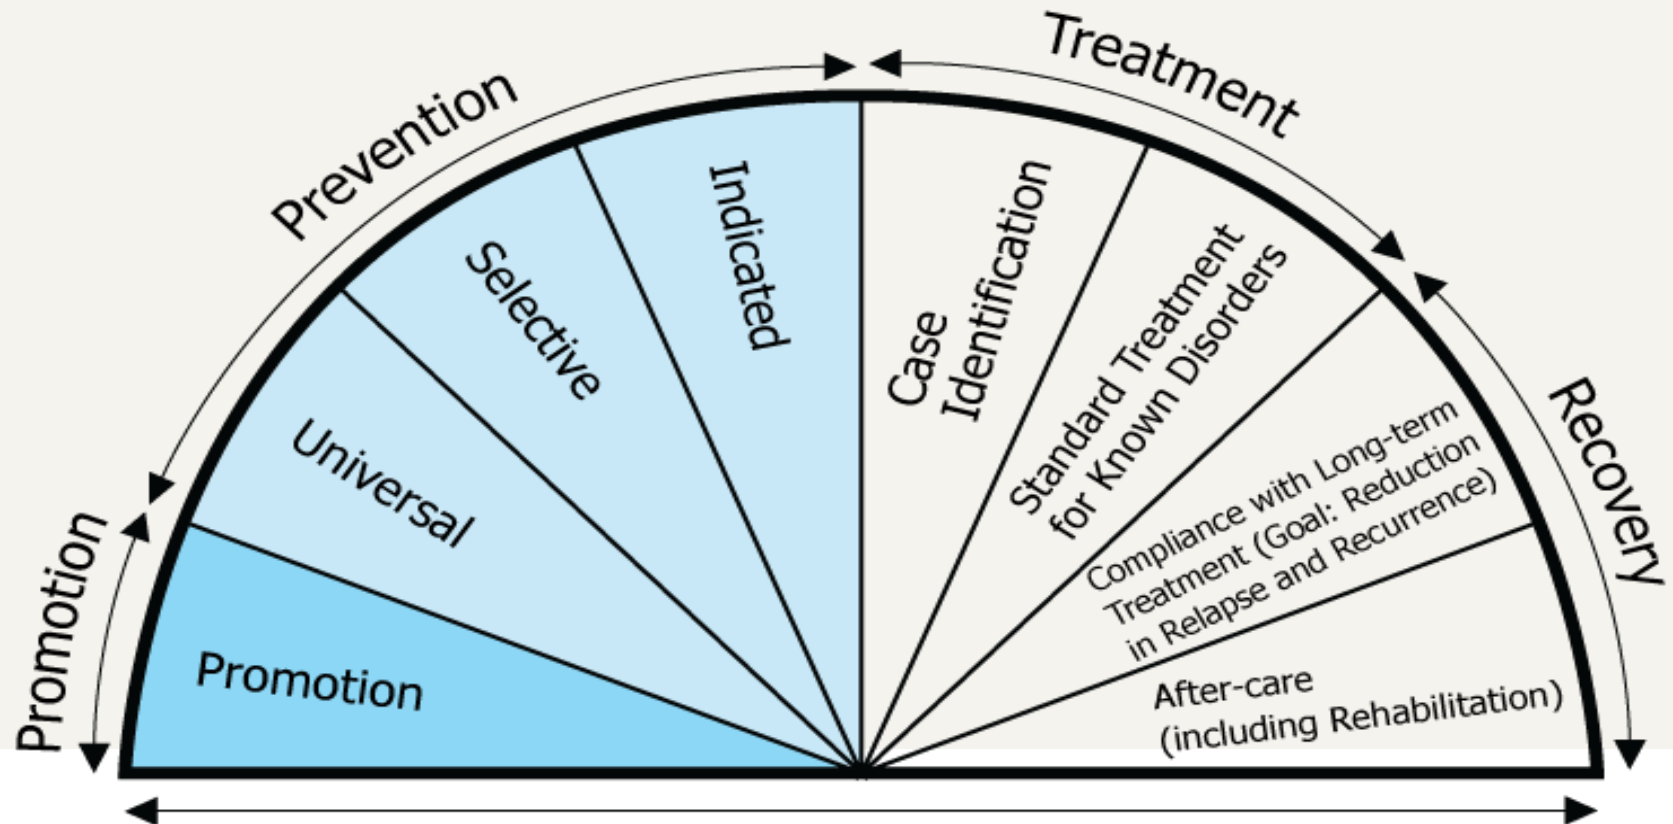

Total estimated substance use disorder treatment expenditures were \$19 million

Residential, inpatient, and long-term care facility services accounted for a majority of mental health system treatment service expenditures in FY2017.

Behavioral Health Continuum of Care Model

The goal of this model is to ensure there is access to a full range of high quality services to meet the various needs of North Dakotans.
