Specialty Health Services

Asthma is a chronic, treatable disease that causes narrowing of the airways, making breathing difficult at times. More than 24 million people in the United States have asthma, including 6 million children younger than 18, according to the Centers for Disease Control and Prevention (CDC). For some children with asthma, evaluation by an experienced team of professionals is necessary for an accurate diagnosis and optimal treatment planning. Families are an essential partner to the team as they are the principle caregiver and the center of strength and support for the child. The following link contains guidelines for the care of children with asthma: nhlbi.nih.gov/health-topics/guidelines-for-diagnosis-management-of-asthma.

Asthma Clinics and Specialists

Asthma clinics are held in Bismarck and Telemedicine-Dickinson. Special Health Services (SHS) supports the regional asthma clinics in Bismarck, which provide multidisciplinary team evaluations where families have an opportunity to see many different providers in one place at one time. Each clinic visit includes an updated Asthma Action Plan to help direct care for the coming year. All children who might benefit are eligible to attend with no direct cost to the family. For more information, review the following link:

https://www.health.nd.gov/sites/www/files/documents/Files/HSC/SHS/SHS_Clinic_Directory.pdf?ver=2

The site and contact information for the asthma clinic is listed below.

A **Certified Asthma Educator** is a health professional who is certified to provide asthma education.

- This includes asthma education to patients, families and health care providers according to the national standards.
- Counseling to patients and families regarding environmental and emotional triggers for asthma.
- Coordination care with other health care providers to improve quality of life for all patients and families.

To locate a Certified Asthma Educator, visit the following website: naecb.com.

Asthma Action Plan

The North Dakota Asthma Action Plan is a tool to help asthma patients and medical professionals manage and prevent asthma exacerbations (symptoms) while providing information that is crucial to those who come in contact with or care for people with asthma.

The N.D. Asthma Action Plan is available at the following website:

Early Intervention (Infant Development)

This is a service designed to help families with children from birth to age three with disabilities and/or developmental delays. The goal of this program is to support the child and their family in gaining skills and fully participating in their natural environment. By partnering with families, ND Early Intervention provides them with the tools and support they need to help their child be successful. Qualifying families have access to a wide array of therapeutic professionals, as well as a Service Coordinator (DD Program Manager) and an experienced parent. Anyone, including family members, can refer a child for a free developmental evaluation, with eligibility based on the following criteria:

- Displays a 50 percent delay in any area of development (cognition, communication, motor, self-help or social emotional skills).
- Displays a 25 percent delay or more in any two areas of development.
- Has a diagnosis or disability that impairs typical development.
- Has a significant health condition that puts them at high risk for developmental delays.

Another component to ND Early Intervention is Right Track. Right Track provides a variety of services to families, which include developmental screenings, referrals to community resources, serving as a resource to parents, etc. To make a referral, or to learn more, call the Developmental Disabilities Division at 800-755-8529 or visit: nd.gov/dhs/services/disabilities/.

Supplemental Security Income (SSI)

SSI provides monthly payments for children who meet disability and financial eligibility requirements. For more information, contact the Social Security Administration at 800-772-1213 or visit ssa.gov.

Women, Infants and Children (WIC)

WIC provides nutritious foods, offers information about how to feed your family, and helps you participate in other important health programs. Pregnant women, breastfeeding women and children up to age 5 who meet WIC's liberal income guidelines are eligible to participate. For more information, contact 800-472-2286 or your county WIC office as listed in the phone book. Visit ndhealth.gov/wic for additional details.

Information and Referral Services

Special Health Services (SHS)

The mission of the Division of Special Health Services is to promote a system of care and services that improves the health and well-being of individuals with special health care needs and their families. Cross-cutting implementation strategies at the heart of all SHS programs include:

- Care Coordination
- Collaboration
- Data-informed Decisions
- Information and Education

Programs and Services

Coordinated Services: Provides services and resources that support coordinated management of specific chronic health conditions.

Financial Coverage Program: Helps families pay for medical services for eligible children, youth, and young adults who require specialty care to diagnose and treat their chronic health conditions.

Newborn Screening and Follow-up Program: The goal of this program is to identify conditions at an early age when treatment and intervention can prevent health problems, support early development, and save lives.

Children with Special Health Care Needs System Enhancement: Improves health outcomes of Children with Special Health Care Needs (CSHCN) by advancing a quality, comprehensive system of care that promotes the healthy development and well-being of children and their families.

Pediatricians and Family Doctors

All children benefit from a medical home. A medical home is not a building, but rather an approach to providing comprehensive medical care. In a medical home, a physician or other medical provider works in partnership with the family/patient to assure that the medical and non-medical needs of the child/youth are met. Through this partnership, medical providers can help families access and coordinate specialty care, educational services, out-of-home care, family support and other public and private community services that are important to the overall health of the child and family. Contact SHS at 701-328-2436 for a list of pediatric doctors who practice in North Dakota.

Public Health

Local public health units provide a variety of services such as immunizations, tobacco use prevention, high blood pressure screening, injury prevention screening, blood lead screening, Early and Periodic Screening Diagnosis & Treatment, home visits, high-risk infant follow-up, general child health services, community wellness programs, and school health screenings. Visit ndhealth.gov/localhd for details.

Education

Head Start

Head Start and Early Head Start are comprehensive child development programs. Regular Head Start programs are for children ages three and four. Some communities offer a program specifically for families with children younger than three and pregnant women. A variety of services are provided through Head Start programs including health, education, parent involvement, family literacy, social services and services for children with disabilities.

School Nursing

The purpose of school nursing is to support the educational process by contributing positively and significantly to the health, health attitudes and health behaviors of today's children, and consequently, tomorrow's adults. Contact the North Dakota Department of Health at 701-328-2436 or more details.

Special Education

It is important to locate and identify children who are in need of special services as early as possible. Screening and assessment opportunities offered at school help identify possible areas of difficulty that could interfere with a child's learning or academic performance. Some children with disabilities may require special education services to address their unique educational needs. Contact the North Dakota Department of Public Instruction at 701-328-2277 or your local special education unit. Visit nd.gov/dpi for more information.

Children with Disabilities Medicaid Coverage

This program allows qualifying children with disabilities to buy into Medicaid. The program provides comprehensive coverage through Medicaid, including dental and mental health coverage, in return for a premium. Apply at your local Human Service Zone office.

Children and Family Coverage

Coverage is available to children younger than 21, pregnant women, and adult caretakers of deprived children. Most receive full coverage; however, some with higher income may be required to pay for a portion of their care. Apply at your local Human Service Zone office.

Children's Hospice Services Waiver

The Children's Hospice Waiver provides support to families so they can care for their children (from birth through age 21) in their homes as long as possible, avoiding lengthy stays and delaying or avoiding institutional care. The child must have a diagnosis and not be expected to live longer than one year. The program also allows families to access treatments that focus on curative and comfort care for their children.

Phone: 701-328-4630

Children with Medically Fragile Needs Medicaid Waiver

This Medicaid Waiver is designed to assist qualifying medically fragile children between ages three and 18 years. The child must be living at home, be Medicaid eligible, be able to meet Level of Care criteria for a nursing home, and meet criteria based on the Level of Need.

Phone: 701-328-4630

Home and Community-Based Services Waiver

Alternative services are provided for individuals with disabilities who are at least 18 years of age and individuals older than 65 who are eligible for the Medicaid Program and have medical needs that would qualify them to enter a nursing facility. The waiver allows North Dakota to pay for services needed for these individuals to remain in their own homes or community settings. Recipients may be required to pay for a portion of their care based on income. Apply at your local Human Service Zone office.

Medicaid Expansion Provides Coverage

Coverage is available to individuals under age 65 with household income up to 138 percent of the Federal Poverty Level (FPL). Individuals eligible for Medicare or Supplemental Security Income (SSI) are not eligible for coverage under Medicaid Expansion. Visit nd.gov/dhs/eligibility for more information.

Intellectual Disabilities/Developmental Disabilities Waiver

This waiver assists eligible individuals with intellectual disabilities and developmental disabilities to remain living at home and in the community. This serves individuals through their lifespan (both children and adults). Services offered under the waiver include Developmental Disabilities Program Management; Infant Development (for children from birth to age 3); In-Home Supports; Assistance with cost of equipment, supplies, and environmental modifications; and Adult Services such as day services, job coaching, and residential services. Apply by contacting the Developmental Disabilities Unit at one of the regional human service centers found online at nd.gov/dhs/locations/regionalhsc.

Workers with Disabilities Medicaid Coverage

This coverage allows some individuals with disabilities who want to work, or who are already working and want to increase their earnings, to do so without fear of losing their Medicaid coverage. It allows qualifying individuals to buy into Medicaid. The program provides comprehensive coverage through Medicaid, including dental and mental health coverage, in return for a premium. Apply at your local Human Service Zone office.

Healthy Steps

This is a benefit program for eligible North Dakota children up to age 19 who do not have a source of health care coverage. The program offers comprehensive medical, dental and vision coverage.

Student Health Plans

These plans are available for purchase by students who don't have health insurance through a parent's health insurance policy or who have limited coverage due to network service areas. Student plans are sold by an insurer that has contracted with a college to offer coverage to its students. In general, these plans have more limited benefits and more exclusions than traditional health insurance plans. Contact an insurance agent to inquire about student health plans.
