Please share as appropriate.

To: North Dakota Clinical Laboratories  
 From: Christie Massen (clmassen@nd.gov)  
 Director, Division of Microbiology  
 Date: 5/14/2020  
 Re: FDA EUA SARS-CoV-2 IgG

The 2020 Directory of Services was sent out earlier this year. The Directory of Services is a resource meant to guide you from specimen collection through the processing and reporting of tests offered by our laboratory.

<b>SARS-CoV-2 IgG</b> CPT CODE: 86769	<b>Acceptable Specimen:</b> 2 ml serum or plasma  <b>Stability:</b> Ambient: 16 hours; Refrigerated: 7 days; Frozen: >7 days  <b>Normal Value:</b> Negative  <b>Turn Around Time:</b> 3 days	No Charge
---	--	-----------

\*Positive results may be due to past or present infection with non-SARS-CoV-2 coronavirus strains, such as coronavirus DKU1, NL63, OC43, or 229E. Results from antibody testing should not be used as the sole basis to diagnose or exclude SARS-CoV-2 infection or to inform infection status.

Please refer to the [Fact Sheet for Healthcare Providers](#) and the [Fact Sheet for Recipients](#) for additional information.

If you have any questions, please contact our facility for the recommended guidance.

**We are here to serve you!**
